

# Ms. Aimee McCracken

## Supervisor

Ms. Aimee McCracken has been my supervisor over the past year and has taught me so much about myself and my future career. She has the absolute patience of a saint, and a passion for helping others and volunteering. Not only is she a third grade teacher, but she also coordinates and oversees the Big Brothers Big Sisters program that the elementary and high school students participate in. Ms. McCracken is truly an inspirational individual in my life, and her impact on the community is tremendous. She is committed to making sure her students are achieving the best of their ability, and pushed them to be the best they can. It's safe to say that without the great experience of working with her this year, I would not be as inspired as I am to pursue my future career in education.

"Teachers can change lives with just the right mix of chalk and challenges."

-Dr. Seuss
