

Dear Replacement,

Congratulations! Being placed at the Fairport Preschool will open your mind and help you make so many connections. The staff that I worked with, Mrs. Porcello and Mrs. Edixon, were thoughtful, exciting, and excellent with the children. No one told me this so I'm going to warn you, if you really do your service right you will be relating everything in life to your students. For example, every time I see a pin on Pinterest that is even remotely related to early childhood development I save it to eventually use in class. The kids frequently associate themselves with the first letter in their name. I promise there is a strong possibility that you will start that too. Seeing an "L" makes me think of "Landon". Seeing "C" makes me think of "Cooper". Seeing a "K" makes me think of "Kenneth". There will be children that require ~~extra~~ help staying focused in class, playing well with others, and opening their mind up to their educational opportunities. You will need tolerance and if you don't →

already have a sense of
patience, you will definitely
~~development~~ develop one.
Again, Congrats! +,

- Olivia Romeo
