

Dear Clothing Room Volunteer,

Congratulations on getting your service assignment!

That's where the fun stuff happens. Kirk and I (and Toni)

were the first PSL volunteers to serve at the clothing room. When we were first put there, we had no idea what we were getting in to. There is

■ A LOT of sorting, organizing, etc. Sometimes, it gets a little overwhelming. However, when people come in on Tuesdays, all the work is worth it. People come in and helping them really makes them feel better and will make you feel better. One of the best

parts, was shopping with the kids from the elementary school. They would come in and get big smiles on their faces. They loved having free reign over their clothes and outfit choices.

Bringing some joy and some fun to their day made our day so much better!

Your supervisor, Kali, is a lot of fun and super energetic and fun! She is really good at making everything run smoothly. Make sure you listen to her because she knows her stuff.

She will bring a lot of life to the clothing room and has already done a lot in the past few months.

Although you may get a few bags of donations that an animal was clearly living in (yup, we think it was rats), you'll love working in the clothing room. You may find some

clothes that NO ONE should ever wear, but don't worry, Kali will have a bag for it.

Congratulations again on your placement! Enjoy your time at your service site because it will ~~fly~~ fly by. Good luck!

Have a great year,

~~Leigh Staw~~
